

INGHAM HEALTH PLAN (IHP)

Welcome!

IHP covers both generic drugs and some brand name drugs. Generic drugs have the same active-ingredient formula as a brand name drug. Generic drugs usually cost less than brand name drugs and are rated by the Food and Drug Administration (FDA) to be as safe and effective as brand name drugs.

What is a Formulary?

A formulary is a list of covered drugs which represents the prescriptions believed to be a necessary part of a quality treatment program. We will cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a network pharmacy, and other plan rules are followed. There may be limits on the quantity or form of the drugs covered. For more information on how to fill your prescriptions, please review your Member Guidebook which you can find at www.ihpmi.org. A two page printable Medication Quick List is also available at the IHP website.

Exceptions to the Formulary

There are no exceptions to the list of covered drugs for Ingham Health Plan (IHP). For diabetes test strips you may get an exception to have 100 vs 50 strips covered if medically necessary and requested by your doctor or pharmacist. For non-formulary medications, accessing support through the medication manufacturer website may be an option to obtain medications (**NOTE: IHP members are considered uninsured). GoodRX.com is a site that helps find the lowest price for medications and gives access to coupons. IF YOU HAVE FURTHER QUESTIONS ABOUT YOUR ELIGIBILITY OR PLAN COVERAGE PLEASE CALL HEALTH PLAN CUSTOMER SERVICE AT 1-866-291-8691.

LEGEND

TIER	DESCRIPTION	
1	Generics	
2	Brands	
TYPE	DESCRIPTION	
QL	Quantity Limit	There is a limit on the amount of this drug that is covered per prescription, or within a specific time frame.
GL	Gender Limit	This prescription drug is restricted for a single gender.
AL	Age Limit	This prescription drug may only be covered if you meet the minimum or maximum age limit.
C	Custom	This drug has unique restrictions.
